 - *1. Will be recognized as a creative and an enterprising team leader.*
 - *2. Will be a flexible, adaptable and an ethical individual.*
 - *3. Will have a holistic approach to problem solving in the dynamic business environment.*

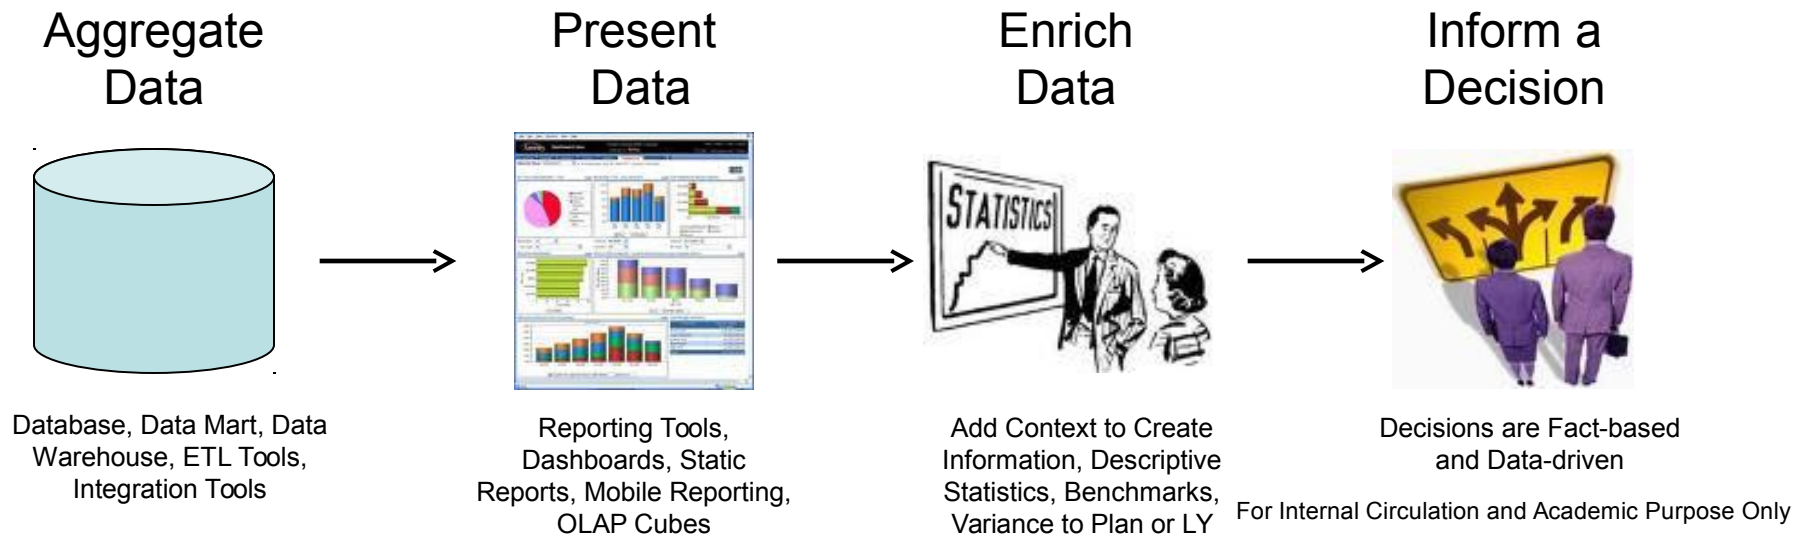

Business Communication & Information Systems

Course Outcomes

- CO1-Given the circumstances, student manager will be able to ascertain the barriers to communication and also propose measures to overcome these barriers.
- CO2 In a given situation, student manager will be able to identify essentials parameters of effective communication and will also be able to justify the same.
- CO3 For given situation student manager should be able to draft Business letter for an organization.
- CO4 Given the circumstances, student manager will be able to draft E-mail to concerned authority/person.
- CO5 Given the circumstances, student manager will be able to gather data and make an informed decision based on it.
- CO6 Student manager will be able to identify & explain modern trends in information system.

What is Business Intelligence?

Business Intelligence enables the business to make intelligent, fact-based decisions

CPU – Content, Performance, Usability

- Content
 - The business determines the “what”, BI enables the “how”
- Performance
 - Minimize report creation and collection times (near zero)
- Usability
 - Delivery Method → Push vs Pull
 - Medium → Excel, PDF, Dashboard, Cube, Mobile Device
 - Enhance Digestion → “A-ha” is readily apparent, fewer clicks
 - Tell a Story → Trend, Context, Related Metrics, Multiple Views

How Important is BI?

Top 10 Business and Technology Priorities for 2011:

1. Cloud computing
2. Virtualization
3. Mobile technologies
4. IT Management
5. **Business Intelligence**
6. Networking, voice and data communications
7. Enterprise applications
8. Collaboration technologies
9. Infrastructure
10. Web 2.0

For Internal Circulation and Academic Purpose Only

Source: Gartner's 2011 CIO Agenda (aka "[Reimagining IT: The 2011 CIO Agenda](#)").

The July 2010 Forrester report “**Technology Trends That Retail CIOs Must Tap to Drive Growth**” identified the following technologies that retail CIOs should be considering as part of an overall architecture strategy:

Mobile

Social Computing

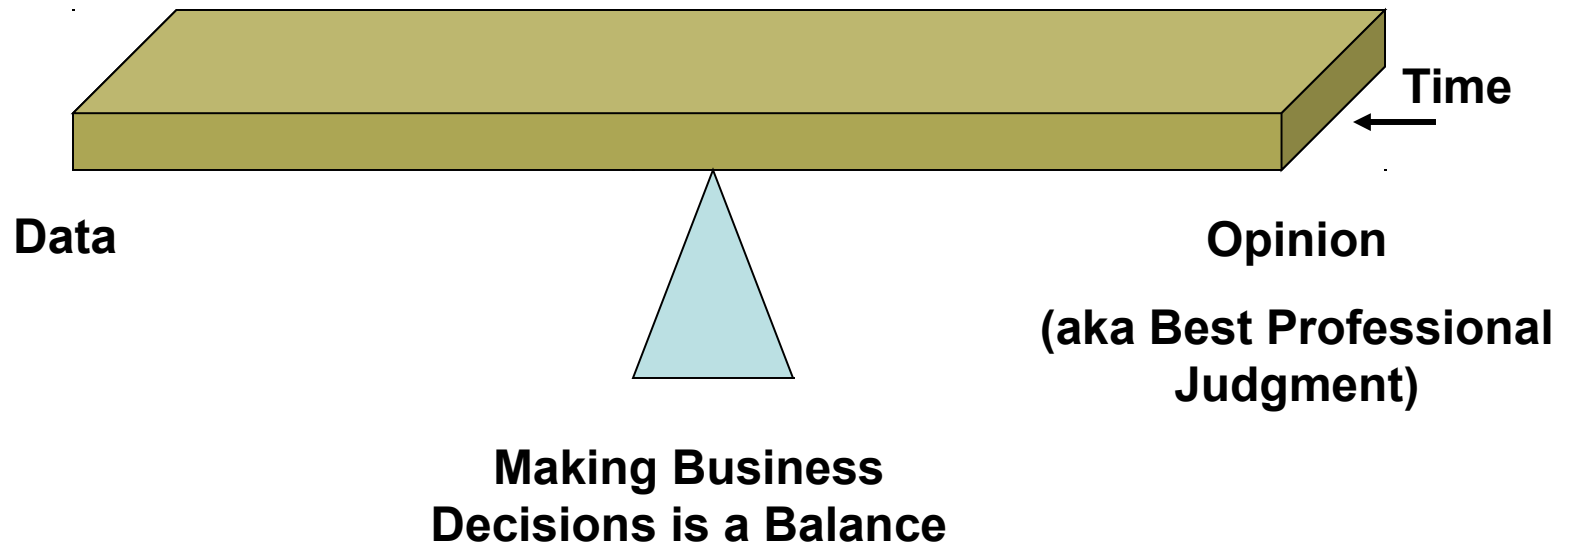

Cloud

Supply Chain

Micropayments

Business Intelligence/Analytics

Why is Business Intelligence So Important?

In the absence of data, business decisions are often made by the HiPPO.

With **Business Intelligence**, we can get data to you in a timely manner.

Major BI Trends

- Mobile
- Cloud
- Social Media
- Advanced Analytics

TDWI Executive Summit – August 2010

What BI technologies will be the most important to your organization in the next 3 years?

1. Predictive Analytics
2. Visualization/Dashboards
3. Master Data Management
4. The Cloud
5. Analytic Databases
6. Mobile BI
7. Open Source
8. Text Analytics

Advanced Analytics / Predictive Analytics

- Data Mining
- Regression
- Monte Carlo Simulation
- “Statistically Significant”
- Predicting Customer Behavior
 - Churn/Attrition
 - Purchases
 - Profiling

BI Today vs Tomorrow

- “BI today is like reading the newspaper”
 - BI reporting tool on top of a data warehouse that loads nightly and produces historical reporting
- BI tomorrow will focus more on real-time events and predicting tomorrow’s headlines

Collegiate Admissions Criteria

- Test Scores: SAT, ACT, AP Exams
- Grade Point Average
- Class Rank
- High School “Strength”
- Extracurricular Activities: Band/Choir, Clubs, Sports
- Non-School Activities: Work, Volunteer, Community Groups
- Area of Focus – Intended Major
- Family legacy
- Home State or Country

Regression Outcome = Graduation (binary) + GPA (linear)

Retail Analytics

- Market Basket Analytics
- Text Analytics
- Customer Segmentation/Clustering
- Tailored Product Assortments
- Inventory Forecasting

Amazon.com and NetFlix

Collaborative Filtering tries to predict other items a customer may want to purchase based on what's in their shopping cart and the purchasing behaviors of other customers

Customers Who Bought This Item Also Bought

\$7.95

What Is Text Analytics?

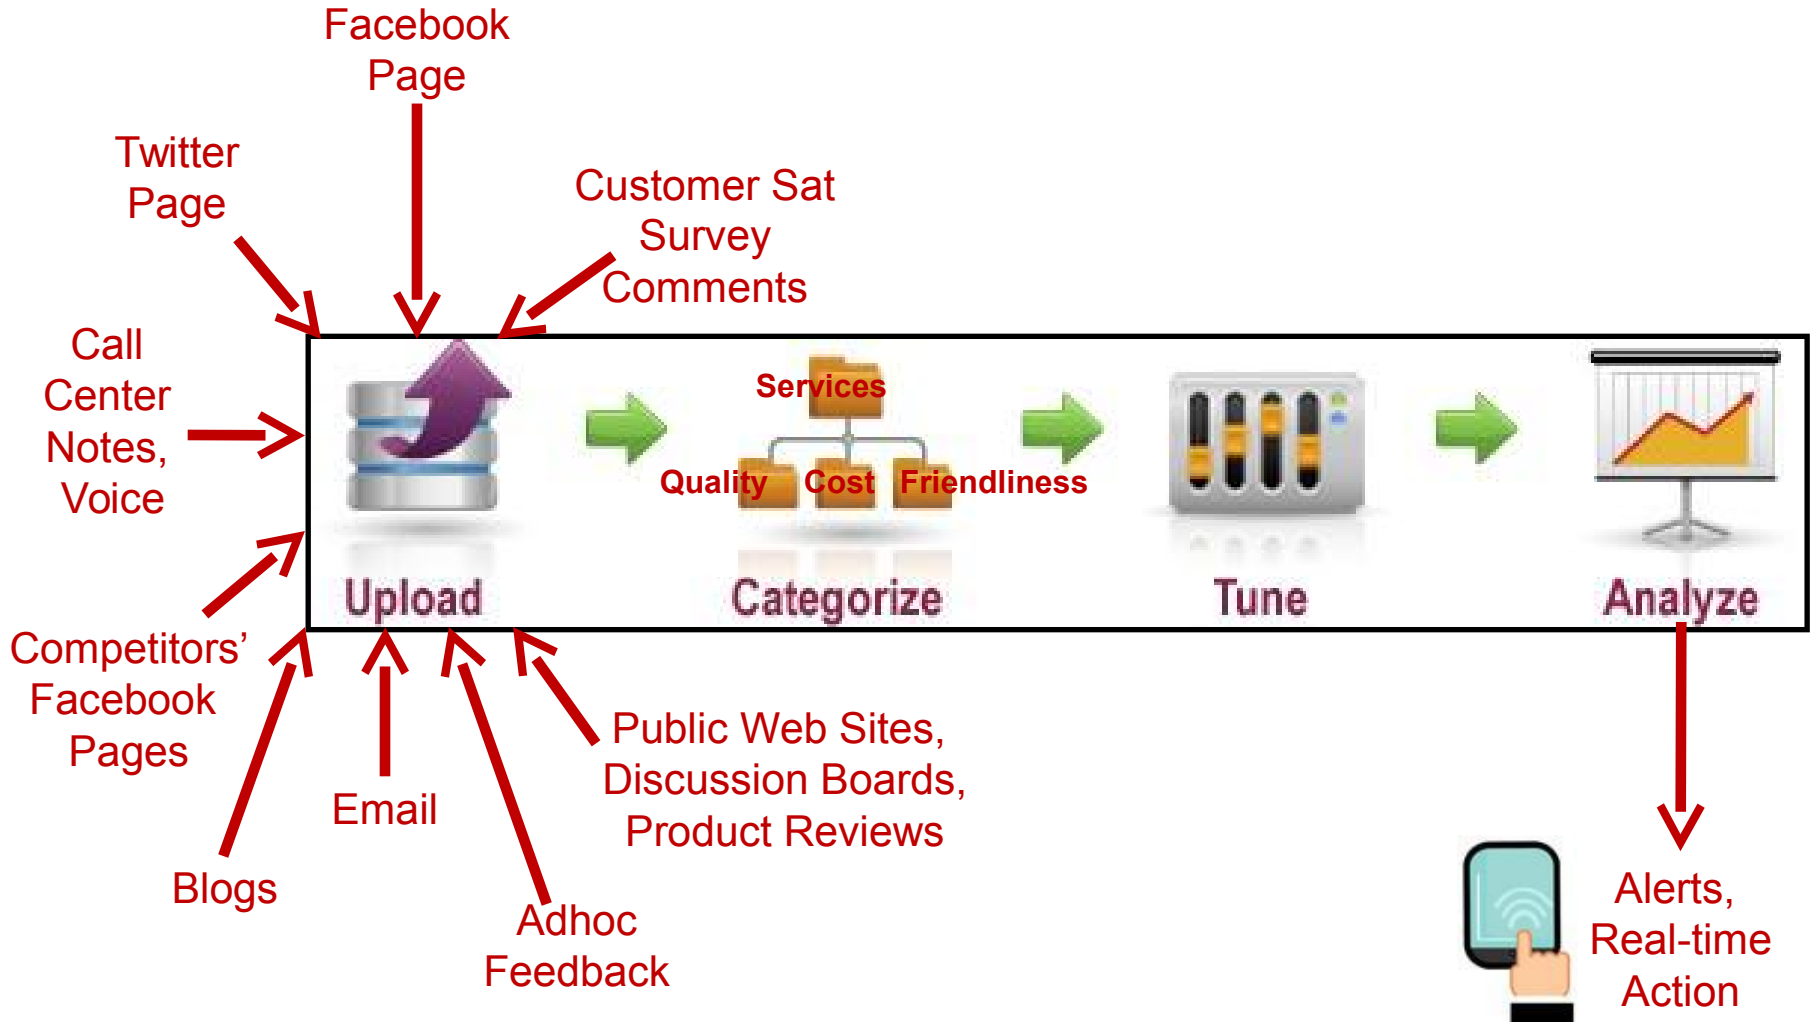

...turning unstructured customer comments into actionable insights

...finding nuggets of insight in text data that will improve our business

From Wikipedia:

... a set of linguistic, statistical, and machine learning techniques that model and structure the information content of textual sources for business intelligence, exploratory data analysis, research, or investigation

Unstructured Text Processing

Today is Respect Your Cat Day!

Celebrate today
Source: community.mcdonalds.com
And in honor of your furry friend (or even just the neighbor's), celebrate with a new McCafé Shake - now with real whipped cream and a cherry on top.
